

## **Retreat a Great Way to Escape Media Release**

Thursday 27<sup>th</sup> November 2008

Getting away from it all has never been this close. Peel's Retreat is prestigious boutique land development of 147 lots located adjacent to a reserve area above Peel Estuary off the Old Coast Road – less than one hour from Perth City, and minutes away from Mandurah.

This weekend, there will be a release of 46 lots in Stage 1, sized between 586 to 951 square meters, and priced from \$175,000 to \$400,000. The average lot size is 707 square meters.

These fully serviced lots are nestled in a natural beach and bushland setting, with Peel Inlet to the east and the Indian Ocean to the west.

Peel's Retreat residents will have direct boardwalk access to the Estuary – a must for making the most out of living next to the popular waterway.

The developers worked closely with the City of Mandurah to ensure that the fauna and flora within the development have been preserved or relocated -thus preserving the idyllic setting.

Peel's Retreat is a joint venture project between Perth based developers Heath Development Company, Markham Development Group and Estates Development Company.

The developers have previously undertaken a number of successful land developments in the Dawesville area including Dawesville Ridge, Aqua Vista and Bouvard Wood.

Visit the sales office located on Wilderness Drive at Peel's Retreat between 1pm and 5pm on the weekends. Alternatively contact Brian Newman from Heath Development Company on 0417 979 015 or 9385 1300.
